Laugh Makers at the Bijou with the Hughes Musical  
Comedy Co.

## COPRA KING MAY RETURN IN WARD

Father Roulier, copra king of the South Sea Islands, and possessing large interests at Fanning and Washington Islands, is expected to avail himself of an opportunity of returning to Honolulu as a passenger in the Commercial Pacific Cable Company's auxiliary schooner, *Flourance*, Ward when that vessel departs from Fanning Island after the completion of a discharge of a quantity of refrigerated provisions and supplies.

Father Roulier sailed from Honolulu four weeks ago in the little schooner *Luka*, formerly belonging to the Miller fleet. So far as is known here, the vessel has not been reported as arriving at Fanning.

From advices received here, Father Roulier is desirous of meeting one or more representatives of a big British corporation which had made extensive purchases in the South Seas. These capitalists are expected to arrive at Honolulu within a few days.

The *Flourance* Ward, in command of Captain Pittz, made a second start for Fanning and Midway Islands yesterday afternoon. When some miles out to sea, the discovery was made that the feed pump, practically the life of the ship, failed to work satisfactorily. Captain Pittz immediately altered his course for Honolulu and was off port late last night.

Today a force of men are at work effecting repairs to the important piece of machinery.

The *Flourance* Ward is heavily laden with supplies for both Fanning and Midway cable stations. The Ward will first proceed to Fanning, where freight left here by the Canadian-Australian steamer will be discharged. The schooner will then take up the longest leg of the triangular voyage and upon arrival at Midway will leave the remainder of the cargo.

Captain Pittz expects to be back at Honolulu with his command not later than the last part of July.

## CONVICTED, HE TELLS HISTORY

When asked by Judge Robinson this morning, "Have you anything to say why sentence should not be passed on you for the crime of robbery in the second degree?" August Santos, a tall young Portuguese-negro, arose and for fifteen minutes harangued the court, spinning a tale that undoubtedly would have been highly entertaining had it been coherently expressed.

He tried to narrate his life's history—of how he, a native of the Cape Verde Islands, had been filled with the wanderlust and become a nomad, cruising for years along the Atlantic Coast and later along the Pacific Coast; how he had suffered innumerable hardships; how he had been in the historic wreck of the ship *Valencia* on the treacherous coast of Vancouver Island five or six years ago, when several hundred lives were lost; how he had gone for days without nourishment; his experiences in San Francisco at the time of the earthquake—all these Santos related volubly.

His words fairly tumbled over each other and his enunciation was so imperfect that the court could catch few of the details and only the general drift of his plaintive story.

But beyond declaring that some soldiers had "put up a job" on him, Santos could give no good excuse for the verdict of guilty that the jury returned yesterday against him. Whether his "hard luck" yarn had any material effect is unknown. It is certain, however, that he might have fared far worse. He drew a penalty of not more than one year in jail. The sentence might have been for any period of time up to twenty years.

Harold Edward Wallace, Santos' accomplice in the alleged hold-up, was sent back to the Coast several days ago, and will serve time in the reformatory there for another crime.

## SECOND INFANTRY NEXT ON THE RIFLE RANGE

Next Monday the Second Infantry starts its work on the rifle range at Schofield, and for the next six weeks the two battalions stationed at the big post will be busy shooting the rifle and pistol courses.

The Fifth Cavalry, which completed its period Thursday last, made a fine record, qualifying eleven men as "expert riflemen" or pistol experts. Of the eleven, Sergeant Doherty of Troop D and Sergeant Forrester of Troop E received "expert" records in both rifle and pistol shooting, while two others of Troop D—Sergeant Nambaugh and Private Lereque—were among those ranked as expert rifle shots.

## Pilots Win Victory.

After a long legal battle, the California State Pilot Association has been victorious over the Pacific Coast Steamship Company, according to a decision just handed down by the United States Supreme Court. The steamship company will have to pay the pilots a considerable sum for back tolls on its steamers which come to San Francisco from Puget Sound via Victoria. While these vessels do not take a pilot on entering the harbor they are nevertheless chargeable, according to the regulations, which state that all vessels from foreign ports must pay pilot fees. The steamship company contended that while their steamers called at Victoria they were bound there from an American harbor and therefore should be immune from taxation.

## NEW GAS BONDS ALL TAKEN BY LOCAL CAPITAL

The Honolulu Gas Company's new bond issue has already all been placed, the \$100,000 issue for extension of the present plant having been subscribed by local capitalists.

This announcement was made today, following a meeting of stockholders at the office of Castle & Withington this morning. The meeting was called upon to act upon the authorization of the \$300,000 bond issue announced some time ago and already passed upon by the directors. The issue is \$300,000 five per cent. gold bonds, of which \$200,000 is to be used in refunding the present outstanding \$200,000 six per cent. bonds. The deed securing the bond has been arranged. The \$200,000 of refunding bonds are taken up by present bondholders. The redemption of bonds is under a sliding-scale premium, beginning ten years from July 1 of this year. The meeting this morning ratified the arrangements.

## HAWAII'S CHANCES

(Continued from Page 1)

will carry muslin, too, and in a race I think he would prefer to see it blow away rather than take it in.

Capt. Harris Alert.

The race having been postponed until Sunday, Capt. Harris has gone to sea with the *Lurline* to be gone until Friday. This looks as if he had blood in his eye and does not intend that the other boats beat him out on seaman-ship.

The four boats should make a very interesting race of it this time and there will be more interest taken here by reason of San Francisco having an entry.

Will forward news about the start later.

**The Probable Handicaps.**  
From information gathered, a local yachting expert has estimated that the handicaps will figure about as follows:

*Lurline*—85 feet over all, 76 feet load water line, racing length 80½.  
*Seafarer*—84 feet over all, 64 feet load water line, racing length 79 feet.  
*Hawaii*—70 feet over all, 62 feet load water line, racing length 61 feet.  
*Natoose*—65 feet over all, 49 feet load water line, racing length 57 feet.  
At three-quarters of an hour per foot would be:

*Lurline*—Scratch.  
*Seafarer*—1 hour, 07 min. 30 sec.  
*Hawaii*—14 hours, 37 min. 30 sec.  
*Natoose*—17 hours, 36 min. 00 sec.  
This is not definite, as no information from the Coast has been sent here on these points, but is taken as a strong probability.

## MARRIED.

**ZERBE-HOLT**—In this city, May 25, 1912, Harry H. Holt and Louise Zerbe, by Rev. R. Elmer Smith.

"Didn't that man complain when you charged him for a broken appointment?"

"No," replied the dentist; "he said breaking an appointment with me was worth every cent it cost."

**Merchant**—Our salesmen must show tact. Now, for instance, if a lady came in the store and asked to see some false hair what would you say to her?

**Bright Boy**—I'd ask her what shade her—her friend preferred, an—"Enough," said the merchant, "name your own salary."

**Smith**—We are certainly in luck with our new cook—soup, meat, vegetables and dessert—everything perfect!

**Mrs. S.**—Yes, but the dessert was made by her successor.

"These various periodicals are making life rather hard for me," said Senator Sorghum.

**"Muckraking!"**  
"No. Printing all the funny stories before I get a chance to tell 'em to my constituents."
